

JAEB CENTER FOR HEALTH RESEARCH

The Jaeb Center for Health Research is a non-profit academically focused clinical trials coordinating center that has been conducting research for almost 30 years. We are a premier coordinating center for research in diabetes, eye disease, and other conditions. We are primarily funded by NIH and research foundations (www.jaeb.org).

OPEN PUBLIC HEALTH POSITIONS

CLINICAL TRIAL COORDINATING CENTER DIRECTOR

The individual will be responsible for the design, planning, development, and oversight of multi-center clinical research studies from study start-up to final closeout. Master's or PhD in epidemiology or statistics or similar field required. Salary will be commensurate with degree, experience and includes an excellent benefit package.

Relocation to the Tampa Bay area is not a requirement. This role allows for the capability to work from home full time.

Candidates may apply by emailing a letter outlining current interests and relevant experience and a curriculum vitae (resume) to careers@jaeb.org. EOE M/F/V/D/DFWP
